

SKAAGGS™

PROFESSIONAL APPAREL & EQUIPMENT

Star Card Program

About us:

Skaggs is your trusted source for quality professional apparel & equipment, all with Skaggs 100% satisfaction guarantee. Our goal is your complete satisfaction. We're not satisfied until you are. We have built our business with the best customer service in the industry, and by selling top quality products that meet your high standards.

STAR CARD PROGRAM

The Skaggs Star Card Is an accounting/purchasing tool utilized by departments for the purchasing of goods from Skaggs.

Benefits:

- Save your department money through controlled purchases while ensuring allowances are actually spent on authorized uniform and or equipment items.
- Larger discounts on purchases by the department.
- Allowances are not taxed as income therefore giving officers more to spend.
- Set pricing on all goods.
- Immediate funds available for new-hires. Activation or deactivation of the star card in moments.
- Minimize investment losses with staff turnover.

Star Card Program

Continued...

- Commitment from Skaggs to have more of the departments approved inventory on hand.
- Ease of use. Let Skaggs track all purchases.
- Profiled items specified by administration of the department. Make sure your officers purchase what you have in policy.
- Officers can only purchase items that administration has placed on profile.
- Detailed purchasing reports available upon department request.
- Finally, your department will look and perform better!

How It Works

Allowance cards:

- The agency or department and authorized employees shall be provided with individualized allowance cards.
- Each card shall be individually numbered specific to each employee.
- Each card will be loaded with an allowance amount as determined by the agency or department. This amount can be increased or decreased by the department at anytime during normal business hours by contacting Skaggs.
- Cardholders will be able to check the available balance by calling or visiting any Skaggs.
- Star cards can be used at any Skaggs locations. Star card users may also place phone orders by providing the card number along with the proper name that card has been assigned to.

Date: August 2, 2014

To: Mayor, and City Council of Holbrook, AZ

From: James and Sue Hudgens

Subject: Mission Lane Annexation 25 years ago

In the last 25 years James and Sue Hudgens have paid approximately \$50,000.00 in city property taxes on their land on Mission Lane.

As we know, the City of Holbrook has done almost nothing to improve roads, lighting, or curb and gutter on Mission Lane.

When the city annexed the area including Mission Lane, there were certain things that was to be done. After 25 years the residents of Holbrook are still waiting.

In the last two years the city has budgeted approximately \$ on concrete to fix roads in the downtown area. There are a number of cross streets that don't even have houses on them.

Improvement costs on Mission Lane are minimal. APS has given the city a price for lighting on their poles. It is \$300.00 per light. Also the price for curb and gutter is approximately \$24.00 a lineal foot. The city has the forms and man power to do the curb and gutter. The only thing missing is the engineering for the: curb and gutter, drainage, street, and 1k black top.

Why haven't the improvements on Mission Lane ever been considered in the budget? As dated of June 10, 1986

The Annex date was June 14, 1988 by the Mayor and Common Council Bob Hagy (Mayor)

CORONADO II

A p a r t m e n t s

To City Conical

7/31/14

Because of safety issues on Mission Lane in the evenings for people walking that many times it's hard to see them at night while driving on that road so it would be appreciated if putting up lighting would be considered for people walking & help in keeping vandalism down because it's hard to see whose out there after 10 pm

Thank You
Manager

Eddie Valle

MISSION LANE

Questions and Answers

(K. Slade)

1. When will streets be paved?

The Holbrook City Council adopted a paving policy some 3 years ago. What it stated was the City would use Highway User funds, and 2nd cent funds to provide paving to Holbrook citizens. This paving, curb, gutters and possibly sidewalks would be at no charge to the property owners. As to the question of when, the policy stated that the oldest area of our City would be paved first and we would continue to pave all dirt streets until the newest would be paved. Therefore, if Mission Lane were to be annexed they would be the newest dirt street and it would probably be some 2 to 3 years before it would be paved.

2. What about animals - horses, cows, chickens, roosters, rabbits, goats, etc.?

The existing zoning in Navajo County at the present time is AG which permits animals to remain on the property. If Mission Lane were annexed the zoning would probably need to be addressed as to what zone Mission Lane would be under. The portion of Mission Lane that is currently in the City limits has about a 200' path directly adjacent to Mission Lane which is RMH3 then directly west of the 200' RMH3 portion is zoned AG. Whether this existing zoning would extend or not is a matter of Council determination. Also, grandfathering will have an effect as to the uses of the property and animals etc.

3. How will the sewer assessment work for 2 to 5 acres when most of the water is for lawn and trees?

The City has a policy where we average the water used during the four winter months of December, January, February and March when the public as a whole are not watering landscaping. This average is then billed for the remaining 8 months. There has been no exceptions to this policy for residential customers.

4. What about a nursery's sewer bill, when watering of trees & plants occurs 12 months of the year?

If there is a commercial account that has a legitimate reason why a sewer rate adjustment would be necessary we will adjust the sewer rate accordingly. An example of where this has occurred was at the Holbrook Ice Plant. Their water bill is in the hundreds of dollars, yet they only have one small rest room facility. The rest of the water is used for ice. In this case, or in the case of a commercial nursery where the water usage is high, yet the sewer demand is low, an adjustment is possible.

- 7
5. When will sewer be in and how much will it cost?

After discussing with George DeSpain, Holbrook Public Works Director, and Ron Eisele, Wastewater Superintendent, they feel City sewer can be extended to the end of Mission Lane within 6 months after the property is annexed. As far as cost, a preliminary estimate would be around \$8.00 per lineal foot. As well as the \$8 per foot the City has a one time fee of \$375 which pays for 1 sewer tap from the main, plus our system buy-in charge.

6. What about TV cable and natural gas - when will it be in and what will it cost?

Mr. Bob Sampson, manager of Cablecom, advised me that TV cable could be installed within a 6 month period of time after notification. The cost of the new line would be around \$2,000 to \$3,000 which the consumers would be expected to pay.

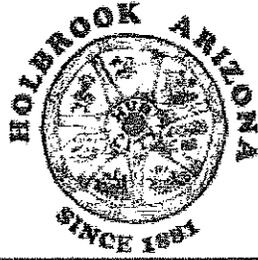

I also visited with Dick Herbert, manager of Southern Union Gas, and it was about the same procedure. The gas line could be installed within 6 months time and the cost of the new line would be covered by the consumers. Southern Union gas will allow 100' free if it is an extension from existing service. The remainder of the line, if more than 100' would be billed to the property owner at the actual cost of the line which averages around \$6 to \$7 per foot.

7. The intersection of Mission Lane and Hermosa with Navajo Blvd. is dangerous. What might be done?

This intersection is a joint problem with Arizona Department of Transportation and the City of Holbrook. The City recognizes this intersection as a dangerous traffic hazard and we have had our City Engineer draw up some preliminary ideas on how to correct this problem. As far as the time frame, I do not feel it would be fair to even attempt to answer this questions at the present time because the State is involved with us in this problem.

Re: Public Works Director Position

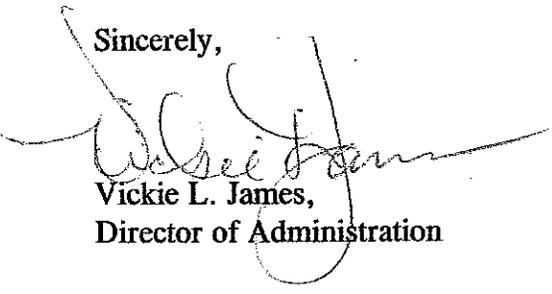

Dear Mr. Hudgens,

At this time the City of Holbrook has headed in a different direction, and therefore has elected not to fill the position of Public Works Director at this time.

Please be advised that your application will remain on file for a period of six (6) months. Should another position come open that you are interested in, please call to have your application considered.

Thank you for your interest in the City of Holbrook.

Sincerely,

Vickie L. James,
Director of Administration

WHAT HAPPENED TO THE IMPROVEMENTS ON MISSION LANE AS PROMISED IN
THE ANNEXATION 25 YEARS AGO?

August 2, 2014

To Residents, Landowners, or Concerned Citizens of Mission Lane,

On August 12, 2014 at 6 PM the City of Holbrook is having a City Council Meeting.

James Hudgens has been allowed 10 minutes to address the misrepresentation of improvements outlined in the annexation of Mission Lane approximately 25 years ago.

As stated in the annexation, the improvements to date have been mostly ignored. *street lighting*

Please show your concerns about this matter, by attending this meeting.

If you want to talk, sign in at the beginning of the meeting.

If you can't attend, a letter of support would be helpful.

Mail by August 10th to:

RE: Quotes

Dear Cher,

This letter is to advise you that there will not be three written quotes regarding the purchase of these body cameras. Taser International is a sole source provider for the Axon body camera system equipped with the evidence.com feature. After testing the camera systems, It was learned that the Taser Axon body camera met if not exceeded our expectations.

I checked with several other companies that provided on body systems but none provided the features that Taser Axon body systems provided. It was also learned that no other camera systems provided the evidence.com feature which did not place them in the same category as the Taser Axon camera system.

Sincerely,

Mark Jackson
Chief of Police
Holbrook Police Department
