City of Holbrook  
Addendum #1 to "Environmental" for Brownfields  
Issued September 18, 2013

Be advised of the additions, clarifications and/or changes to the above referenced bid documents as stated in the following addendum.

1. As per regulation, a minimum of three samples for asbestos analysis needs to be collected from each building material that is listed in notes 1 and 2 on the bottom of Table 1.
2. As per Table 3, footnote 3, for this project EPA requires asbestos inspections to be performed by AHERA certified building inspectors. The consultants are expected to know the asbestos regulations that are applicable to asbestos inspections in the type of structures that are listed. It is not the City of Holbrook's responsibility to identify these to the consultant.
